Dear Masao Enoki,

Hello, I am Dao. How are you? My family and I are well in Laos. I was so happy to receive a letter, a postcard, a pencil case, an eraser, a sheet of stickers, a pack of color pencils with two pencils, a pack of four pencils and a notebook from you. I am really thankful for your kindness. I like them so much and I will use them in my study. On the other hand, I will try hard to study in order to be a good student. I have never known computer before. The above picture was drawn by me.

The main career of my family is farmer. Also, we only earn our living from the forest and stream. Most of people in my community are also farmers.

Finally, I wish you always have good health and happiness.

With regards and loves,  
Dao
